President's Foreword

The Academy of Dentistry faces a very important year. The next twelve months should see the implementation of many features of the Wood Gordon Report in the rewriting of the constitution of the Ontario Dental Association. When the preliminary draft of the constitution was first published, a committee was set up to study this and many changes were submitted to the Constitution Committee for their consideration. We are now awaiting the results of their deliberation.

It was also decided to take a good look at the activities of the Academy and to plan for its future. To this end a committee was appointed consisting equally of past presidents and fellows of the Academy. We hope to have a preliminary report of their deliberations ready for the Dinner Meeting on October 18th.

It is very important this year, that close liaison be maintained between the District Societies and the Council, through their elected representatives, so that their views of these important matters be known to your Council. As usual, the Academy with its theme of "Continuing Education" has prepared what we hope is a stimulating program. Under the chairmanship of Dr. M. Hardy, the Winter Clinic is being enlarged to accommodate the increasing number of members.

The February stated meeting will be an all-day program on "Diagnosis", presented by the Dean of the School of Dentistry, University of Pennsylvania, Dr. Lester Burket.

I am sure you will read the Year Book carefully to acquaint yourself with all the facets of the program.

Before closing, we of the Council would like to thank you for the co-operation we have received and trust we will again have your support and confidence in the coming year.

MURRAY CORNISH,
President.

DR. MURRAY CORNISH

Our President was born in Toronto in 1915. He received his early education at Niagara Street School and Harbord Collegiate and graduated from the Faculty of Dentistry in 1939. He enlisted in the Canadian Dental Corps, where he served in Canada, Britain and the Continent.

Dr. Cornish started practice on St. Clair Avenue near Dufferin Street and was there until 1961 when he moved to the Eglinton and Yonge district.

Our President has taken an active part in Dental Society affairs, having served on the Ontario Dental Association Committee for many years. In 1964 he was General Chairman of the O.D.A. convention. He has been on the staff of the New Mt. Sinai Hospital for 26 years and is now serving as Senior Attendant in charge of Oral Diagnosis. Dr. Cornish is married to the former Freda Foreman of Toronto and has two daughters, Leslie and Mardi, and is a member of the Shaarei Shomayim Synagogue. He enjoys fishing and gardening.

Topic:
"Current Events in Dentistry"

Synopsis

These are busy days for dentistry. The profession finds itself in the forefront of national and provincial movements to improve the health of the nation. Research and preventive activities are beginning to change the complexion of dental disease as seen in Canada. Greater productivity on the part of practitioners and their auxiliaries needs to be carefully related to increased demands for dental services. Pressures are upon us to make greater use of auxiliaries. Properly trained dental teachers are much in demand. The number of applicants to dental schools are in excess of the available spaces, and the number of students in dental schools, both undergraduate and graduate, have never been as great. Prepayment is an accepted method of paying for dental services. Dentists expect more in the way of services from their own organizations and are taking a greater interest in professional affairs than heretofore.

Guest Speaker:

W. G. McINTOSH
D.D.S., M.Sc.D.

BIOGRAPHY

Dr. McIntosh was born in Hanley, Saskatchewan and obtained his D.D.S. at the University of Toronto in 1937 and an M.Sc., D. at University of Toronto in 1957.

He has practiced as a periodontist in Toronto since 1938 and was associate professor of Periodontics at University of Toronto and consultant in periodontics at the Hospital for Sick Children and Sunnybrook Hospital.

Our speaker has served on many C.D.A. Committees, being Chairman of the Research Committee 1949-54 and of the Dental Services Committee 1961-64. He was Chairman, Research Committee, American College of Dentists 1957-58, member of the C.D.A. Board of Governors 1957-61, President of the Canadian Academy of Periodontology, 1958-59, President of C.D.A. 1959-60 and now appointed Secretary of the C.D.A. on January 1st, 1965. Dr. McIntosh was elected a Fellow of the American College of Dentistry in 1950.

He is married and has three children. We consider it a privilege to have him come to speak to our Academy.

Sinai Hospital and past-president Toronto Radiodontic Study Club.

FIRST STATED MEETING

SEMINAR

Moderated by—JOHN PEDLER, D.D.S., M.D., Ph.D.

Topic: “Pain”

The phenomenon of pain and its related aspects will be discussed in seminar form from the standpoint of a dentist, a neurologist and a psychiatrist.

In the initial part of this seminar some of the factors associated with pain, particularly as it relates to dental pain, will be discussed. Consideration will also be given to the dynamics of pulp inflammation and its effect on the periodontal ligament. Mutual understanding of each others problems is mandatory, if patients afflicted with pain in this region are to be effectively helped. Emphasis will be on diagnosis and treatment, particularly of conditions which may be confused with primary dental disorders.

In addition this presentation will cover the psychogenic reasons behind pain in the facial region. It will discuss the question of the basis for the belief in psychosomatic pain and will include a short dissertation on suggestion and hypnosis as a help in treatment.

SECOND STATED MEETING
ROYAL YORK HOTEL, CONCERT HALL 9 A.M. - 5 P.M.
\$10.00 — Luncheon Included
THURSDAY, FEBRUARY 3rd, 1966

Essayist:

DEAN LESTER J. BURKET
D.D.S., M.D.

Topic: "Diagnosis"

*The dentist of today has increasingly important responsibilities in the recognition and diagnosis of oral lesions of local as well as systemic origin. He must play a significant role in the recognition and cooperative treatment of pre-cancerous and early cancerous lesions of the mouth. For this reason the **White Lesions of the Oral Mucosa** will be discussed in detail. The acute lesions of the oral cavity such as oral herpetic and aphthous lesions, erythema multiforme and pemphigus will be reviewed, since these often pose problems in diagnosis to physicians and dentists. The characteristic clinical features of nutritional deficiencies, glandular disturbances and diseases of the blood entities will be presented with points pertaining to differential diagnosis. All presentations will be extensively illustrated by means of coloured slides.*

BIOGRAPHY

Dr. Burket graduated from the University of Pennsylvania School of Dentistry in 1932 and the Yale University School of Medicine in 1936. He was Professor of Oral Medicine in undergraduate and graduate Schools of Medicine at Pennsylvania University and a lecturer at Walter Reid Hospital and Jefferson Medical College. He attained the position of Dean of the School of Dental Medicine, University of Pennsylvania in 1951.

Our lecturer has been consultant to Army, Navy and Veterans' Administration and Chief of Oral Medicine Service, Philadelphia General Hospital since 1947, and President of the American Association of Dental Schools in 1961.

He is the recipient of numerous medals, awards and honorary degrees, and presently on several research and education committees and a Director-at-large for the American Cancer Society (National).

THIRD STATED MEETING

FACULTY OF DENTISTRY AUDITORIUM

8:15 P.M.

THURSDAY, MARCH 10th, 1966

Essayist:

DR. HARRY BLECHMAN

Topic: "Social and Cultural
Values in Health and
Disease"

Illness and disease appear to occur mainly in individuals suffering from the strains and stresses of life and are more closely related to alterations in the host than to assumptions of new levels of virulence by indigenous parasites.

BIOGRAPHY

Dr. Blechman was born in Brooklyn, New York. He received his D.D.S. from New York University College of Dentistry in 1951, and his M.A. from Hunter College and Sloan Kettering Institute in 1959.

As a microbiologist he was with the U.S. Army from 1943-46, and served in England and Germany with the rank of First Lieutenant.

Since 1960, Dr. Blechman has been Professor and Chairman, Department of Microbiology and Preventive Medicine and Hygiene; Executive Secretary, Murray and Leonie Guggenheim Foundation Institute for Dental Research; Director Clinical Pathology Laboratory, and since 1964, Assistant Dean at the New York University College of Dentistry.

He has served as a member and Chairman of the Council of National Board of Dental Examiners of the American Dental Association and numerous other national advisory committees on educational policy and curriculum.

Many articles have been written by Dr. Blechman on the effect of environmental alterations on oral microbial interactions in the oral cavity and tissue changes in the host.

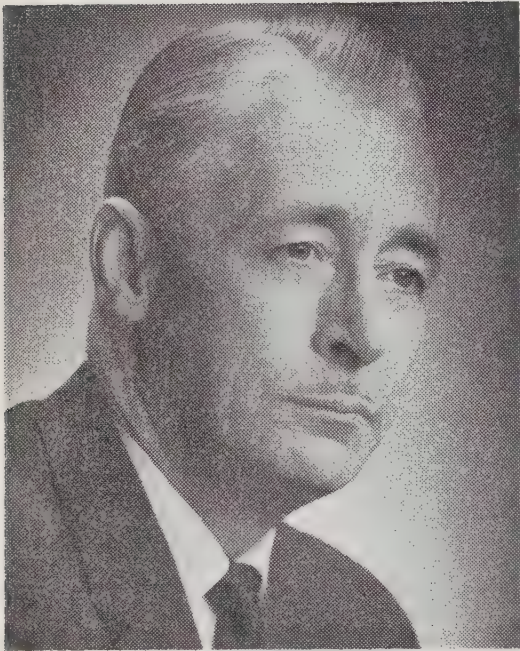

CANADIAN DENTAL ASSOCIATION

PRESIDENT'S NIGHT

FACULTY OF DENTISTRY AUDITORIUM

8:15 P.M.

THURSDAY, FEBRUARY 15th, 1966

Speaker:

PHILIP S. CHRISTIE
D.D.S., F.I.C.D.

Topic: "The Winds of Change"

The proposition will be explored that the "winds of change" sweeping our society are also blowing upon the profession; that this is not necessarily a misfortune; that changes in the relationship of the profession to society may add further to the expansion of the professional horizon already affected by scientific and technical advances; and that such changes demand the close cohesion of the profession in a functional organic unit.

BIOGRAPHY

For the 2nd year we welcome the President's visit to the Academy. Dr. Christie was installed as President of the C.D.A. on May 31st, 1965 and serves in that office through the 1966 Annual Meeting.

Our speaker was born in Halifax. He received his D.D.S. at Dalhousie University, Halifax, in 1939 and served as a Captain in the Royal Canadian Dental Corps from 1939 - 1943. Dr. Christie was President of the Halifax County Dental Society 1948-49 and the Nova Scotia Dental Association 1953-54. He serves on a teaching staff, part-time, at Dalhousie University and is a Fellow of the International College of Dentists.

HAROLD KEITH BOX MEMORIAL LECTURE

FACULTY OF DENTISTRY AUDITORIUM

8:15 P.M.

MONDAY, OCTOBER 18th, 1965

Speaker:

PROFESSOR HANS SELYE, M.D., Ph.D., D.Sc.

Professor and Director of the Institut de Medicin et de
Chirurgie Experimentales, University of Montreal

Subject:

“CALCIPHYLAXIS” — “A condition of induced systemic hypersensitivity in which tissues respond to appropriate challenging agents with a precipitous local calcification.”

BIOGRAPHY

Professor Selye was born in Vienna. He received his M.D. in Prague in 1929 and his Ph.D. in 1931.

He was appointed assistant professor of biochemistry at McGill University in 1934. From 1936-45 he performed research at McGill in “Stress Syndrome”. He left McGill in 1945 to take his present directors position. He has lectured at home and abroad and is the author of approximately 1,000 publications.

This will be an outstanding presentation.

AUDITOR'S REPORT

The Academy of Dentistry,
230 St. George Street,
Toronto, Ontario.

Gentlemen:

Re: Annual Audit — April 30th, 1965

I hereby certify that I have made a detailed examination of the books and records of receipts and disbursements for the year ended April 30th, 1965, and attach the appropriate certified statements relating thereto.

The credit balance of \$5,056.32 with the Toronto General Trust Company's branch at 36 Bloor Street West has been confirmed and a certificate secured stating that they hold Dominion of Canada bonds amounting to \$8,000.00 for the Academy.

Respectfully submitted,

D. H. STODART,
Chartered Accountant.

Toronto, Ontario,
May 26, 1964.

SECRETARY'S REPORT 1964-65

Under the capable leadership of our President, Dr. J. E. Carson McGowan, the Academy of Dentistry enjoyed a season of full activity in many spheres.

At the Annual Dinner we heard an excellent address from Dr. Marcus Long. Then followed the Golf Tournament and the Annual Dinner Dance at the Rosedale Golf Club, with a splendid attendance at both affairs.

The highlight of the Academy year was the annual Winter Clinic held at the Royal York Hotel. Guided by Dr. Murray Cornish this event was a great success, and Dr. Cornish reported a record attendance.

The stated meetings were well attended and had three able clinicians. Dr. Maurice J. Oringer spoke to the Academy on Dental Electrosurgery, and created sufficient interest in this subject that the Academy arranged for his return in May for a 3-day course in the same subject. Dr. T. M. Graber described "Orthodontics the Dentists can use" and Dr. Frank Martin stressed basic knowledge of Periodontology, before proceeding with Crown and Bridge prosthesis. This was very ably illustrated with the use of projectors.

The Annual Curling Bonspiel was held on March 4th, under the guidance of Dr. Bert J. Levin.

A special meeting was planned for Dr. R. Langlois, President of the Canadian Dental Association, who was aided by Dr. Ed. Johns, President of the Ontario Dental Association, and an interesting discussion period followed.

One important factor this year was the interest in the Woods Gordon Report and a special Academy meeting and individual local society meetings were held with discussions on the subject.

Dr. M. A. Kamienski was in charge of the Dental Assistants' Course and this culminated in a very impressive graduation ceremony on April 14th at the Faculty of Dentistry auditorium, with 79 girls participating.

Our Mediations Committee is to be congratulated on its efforts, as it goes on each year unsung and anonymous, yet serves a very needy function in our Academy structure.

The Academy of Dentistry prize in children's dentistry was presented to Dr. F. M. Mattan, a 4th year student at the Faculty of Dentistry. We offer our congratulations.

Special thanks go out from all council members and former members to Mrs. K. Montgomery for her help and direction in the past years. We wish a warm welcome to Mrs. R. Jones, our new executive secretary, who is making a special effort in coping with our many committees and varied tasks.

MORLEY G. HARDY.

EMERGENCY SERVICE

There was a marked increase in the number of emergencies dealt with during after-hours, weekends and holidays.

No difficulty has been experienced in obtaining the services of the profession in maintaining this very necessary public service, which the Academy of Dentistry sponsors due to the inability of the Metro hospitals to undertake this responsibility at the present time.

My most sincere thanks to all the men who have made it possible for me to organize this service — many times at great personal inconvenience to themselves.

BERT J. LEVIN,
Chairman, Emergency Service.

REFEREE BOARD ON DENTAL CARE

LADIES' AUXILIARY

The Ladies' Auxiliary of the Academy of Dentistry, Toronto, has established a fund with which they provide dental care for needy children. Patients are recommended by Dr. S. Grey of the Department of Public Health and treatment plans are authorized for payment from the fund by the Chairman of the Referee Board.

In 1964-65 term, 13 cases were referred and nine of these have been completed.

In my opinion, it has been a very successful year. Much credit goes to the Ladies' Auxiliary for the fine work they are doing in this field.

GEORGE C. STIRLING,
Chairman, Referee Board on Dental Care.

MEDIATIONS COMMITTEE

64 cases were hopefully resolved by your Committee during 1964. From the many inquiries directed to the Academy office, there is evidence that some patients find difficulty communicating with their dentist. These inquiries are not necessarily mediated.

The 18 members of the Mediations Committee ask the co-operation of the Dental Profession in performing a sometimes difficult task. The work of the committee would be reduced considerably if dentists would clearly inform their patients:

- (1) The exact nature of treatment.
- (2) The number and duration of appointments required to complete treatment.
- (3) An estimate of the cost of treatment.

The Mediations Committee attempts to act as a public relations service to the public and to dentistry. Often it serves too late.

A. BRUCE HORD,
Chairman, Mediations Committee.

TWO-DAY COURSE IN HOSPITAL DENTISTRY
Scarborough General Hospital
Thursday and Friday
OCTOBER 21st and 22nd, 1965

There has been a resurgence of interest in hospital dentistry, not only on the part of the professions, but also those agencies and organizations which govern and regulate our hospitals.

With full cognizance of this, the staff of Scarborough General Hospital is holding its third annual two-day seminar on hospital dentistry. The theme will be "THE INTEGRATION OF THE DEPARTMENT OF DENTISTRY INTO THE HOSPITAL PATTERN".

Registration Fee — \$50.00 Limited Attendance

H. Robbins	J. Crawford	R. Pick	G. Sterling
R. Grose	H. Vogl	R. Bennett	W. Rice
B. Crystal	M. Houpt		

Your Academy acknowledges that the United Appeal concept is the proven best way of organizing and financing our voluntary welfare and charitable organizations. No one, anywhere, has found a better way.

This year, as in the past, you will be canvassed by a fellow member of our profession. Please receive him hospitably, have your cheque or pledge ready, and make his task a little bit easier.

You and your community will be the greater for your generosity.

DENTAL ASSISTANTS' EVENING COURSE

The graduation ceremony for the fifth annual evening course in Dental Assisting was held at the Faculty of Dentistry in April. The Auditorium was filled to capacity. Dean R. Ellis was the guest speaker. Seventy-nine students successfully completed the course and were presented with their certificates by Dr. J. P. Coupland, President of the Royal College of Dental Surgeons of Ontario.

The purpose of the course is two-fold: first, to up-grade the knowledge of the girls already employed in dental offices; second, to give instruction to those interested in a career as dental assistants. Members of the profession are encouraged to give special consideration to graduates when hiring their assistants.

The Academy expresses its thanks to the many people who contribute to the operation of this course.

MIET A. KAMIENSKI,
Chairman, Dental Assistants' Course.
